i would like it if you would just leave xm radio alone or if you feel that there is a need to stop them from broadcasting anything on a paid subscription like i have with them then you need to step up and really level the playing field by that i mean i dont like to hear the bull crap thats on local radio or news programs like all there advertisments and lyes and political riff raff. just the facts like x,m does so if you take anything away from xm then it should also be taken away from the local media also if they dont want xm radio broadcasting local news and traffic then i dont want them to be able to do it then eeathier its about time that you and congress even maybe the president of the UNITED STATES of AMERICA lets them know to quit whining and crying fair is fair here is an idea if you want to look into something maybe have local media be subscription only how many radio or tv station do you think would last this is a free country and a free market place. i would like to thank you for you time and just in case you was wondering i am an active voter and i vote in every election local and fedral and i will voice my opinon to everyone who will hear me thank you for your time sencely eric s meyer
